S U M M A R Y

Postgraduate in M.Sc. Digital Society with interdisciplinary research experience in agricultural credit, healthcare digitalisation and rural development. Experienced in field research, primary data collection, surveys, interviews, FGD, stakeholder engagement, and qualitative and quantitative data analysis. Research experience includes fieldwork with farmers in Rajasthan and healthcare research with IIT Delhi in Chhattisgarh and Jharkhand. My research background is complemented by training in data extraction and analysis at the V.V. Giri National Labour Institute. Research interests include labour and livelihoods, digital transformation, governance and evidence-based public policy.
